

ANIMATION

The field of animation merges the arts of acting, design, illustration, sculpture, and filmmaking with today's technology. To be successful, animators must understand how to use technical tools and professional production techniques to create strong narratives. That's why RMCAD's curriculum is focused on creating compelling content to tell stories. Whether you choose to pursue 2D or 3D Animation, you'll graduate with a portfolio reel that will set you apart by showcasing your unique artistic voice, a strong visual style, and the ability to communicate through animation.

Thanks to small class sizes, you'll have easy access to faculty and other students, allowing you to work closely with talented animators at all levels. You'll hone your artistic skills through collaboration with students from other departments so that your work is well-rounded and unique.

PROGRAM OUTCOMES

Program outcomes can be found in the RMCAD Academic Catalog and serve the Institutional Learning Outcomes. These are Rocky Mountain College of Art + Design's overarching goals and competencies, which include: cultural competence, communication competence, design competence, and critical thinking. In addition to meeting program outcomes, students enrolled in Animation will also fulfill requirements in Liberal Arts and Foundations.

SKILLS YOU'LL GRADUATE WITH

Storytelling for Animation, Digital Content Creation, Character Animation

AFTER GRADUATION

An Animation degree from RMCAD prepares graduates to be independent creative leaders in the industry, equipping them with highly technical drawing skills and an aptitude for developing animation that has purpose, direction, and imaginative storylines. Our alumni have gone on to work with cutting-edge companies such as Pixar, Cartoon Network, Rockstar Games, Lego Group, and Treyarch, to name just a few.

ABOUT RMCAD

Founded in 1963, RMCAD is a regionally-accredited institution of higher education that offers undergraduate and graduate-level degree programs focused on the arts, design, education, technology, and business. The college is dedicated to the personal success of each student, whether they choose to pursue their studies on campus or online. RMCAD offers courses taught by practicing industry professionals; an intimate learning environment; multimedia-rich online classes; and a beautiful Denver campus. Our goal is to allow artists and designers to find their voice, discover their own paths, and thrive as professionals.
